“SUNSHINE” COLLECTION OF PRIZE-WINNING GLADIOLUS

**Assorted Colors, Red, Blue, Pink, Lavender, White, Yellow, Purple,
Cream, Salmon, etc., All Colors Mixed.
100 Large, Flowering Size Bulbs, \$2.00 Postpaid**

Last year this collection was received by my customers with great enthusiasm. And no wonder! It is one of the most remarkable offers ever made to “glad” enthusiasts. It is no more like the usual “run-of-mine” collections than a Kentucky thoroughbred is like an Indian pony. These are not just mixed Gladiolus. It is a specially “assembled” collection. Every bulb that goes into it is “selected to add a certain quality to the collection, size, beauty, coloring, etc. Together they run the entire gamut of colors, red, blue, pink, lavender, white, yellow, purple, cream, salmon, etc. It’s a great improvement over last year’s collection, and in larger bulbs, **THE FINEST THAT MONEY CAN BUY**. Connoisseurs have paid for a single bulb of these varieties several times the price that I am now asking for the entire collection.

Large, Healthy, Flowering Size Bulbs.

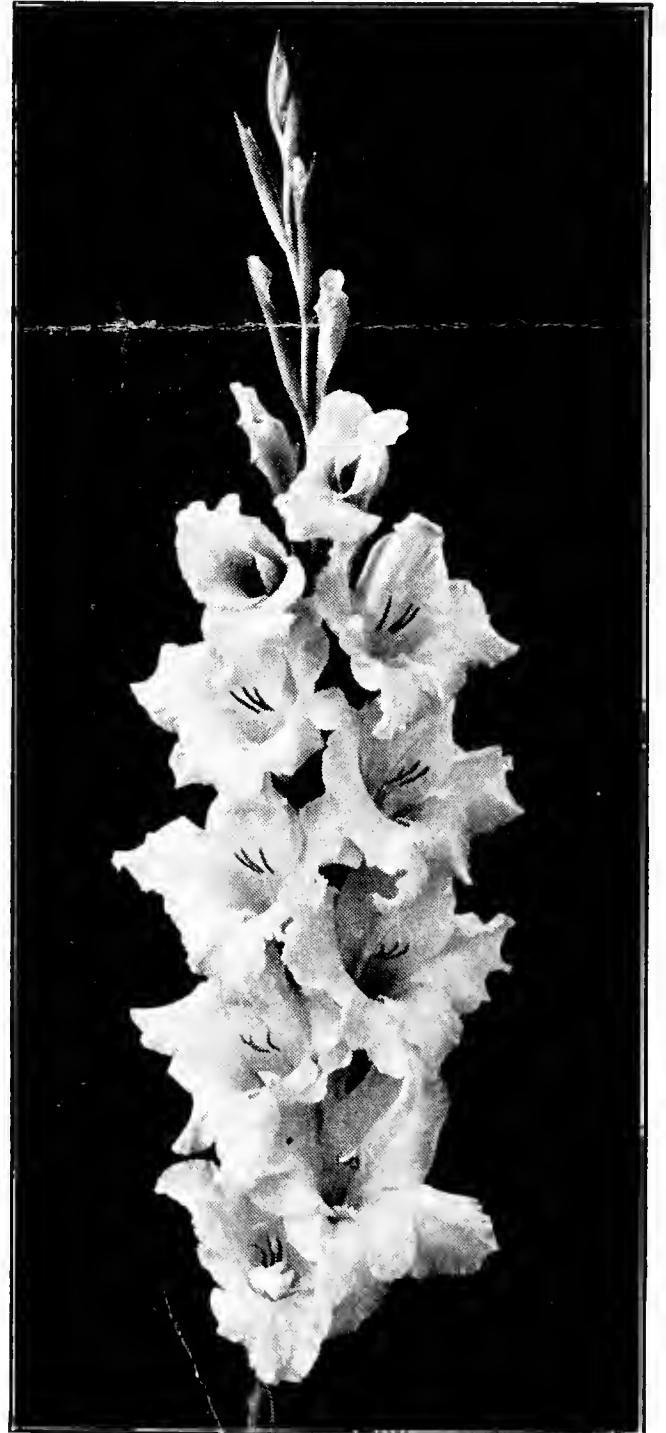

Every bulb will be flowering size, sound, plump, healthy and full of pep, just waiting to be put into the ground. There are no old worn out bulbs; no obsolete varieties; and the stock is guaranteed entirely free from all insect pests and diseases. Each package will contain a pamphlet telling how to grow fine Gladiolus.

Order Several Collections—Plant For Succession of Bloom

Order as many collections as you can find room for. Make a planting every two weeks and have cut flowers constantly for the table, also flowers in the garden for mass effect throughout the entire season. A single stalk will last two weeks as a cut flower. Last year many of my customers ordered from two to ten sets of this collection. They found, as you will find, that as they should be planted close together, they do not require much space. A bed 2½ feet wide by 5 feet long will accommodate 100 bulbs. If you do not have this much space available, get your neighbor to join with you. But I am sure you will find a thousand of these magnificent Gladiolus none too many if you have room for them. We cannot sell less than a full collection, as this remarkably low price is made possible only by putting up thousands of packages of a uniform size.

Nothing Easier to Grow

There is nothing easier to grow, or more satisfactory, than Gladiolus. Just put them in the ground and watch results. Plant them anywhere, in clumps, in beds, or in rows. Or fill in the unused spots in your garden. These Superb Prize-winning Gladiolus will add a magical spot of color, wherever you put them.

THE WORLD'S 15 BEST GLADIOLUS

These 15 Varieties Received the 15 Highest Votes of The American Gladiolus Society

When I say that the 15 Gladiolus described below are the "World's Best", I am not merely expressing a personal opinion. LENGTHEN YOUR SEASON OF IRIS BLOOM FROM CROCUS TIME TO AUTUMN FROST

Why be satisfied with a few short weeks of Iris Bloom, when you can enjoy these "Daughters of the Rainbow" throughout the entire growing season. I have arranged the 12 Collections listed below to give a complete succession of bloom. You may add such groups as you need to complete a full season of Iris bloom in your own garden; or you may order all 12 collections at one time.

Each collection contains the very cream of a definite Iris group, selected from the most famous collection on the continent. The collections are listed in the order in which they flower—FROM SPRING TO FROST. Every plant is carefully labelled.

Collection No. 1—RETICULATA IRIS

The First Flower of Springtime

Blossoms in March in our Northern States Right Through Snow and Ice. A rare prize for the rock garden, or any other spot where a mass of early flowers is wanted. Color rich royal purple, with lovely golden veining at the throat. Violet scented. Rugged and easily grown. I know of a clump that has flowered undisturbed for fifty years in a New England garden.

12 Rare Reticulata Iris for **\$2.00**

Collection No. 2—LOVELY MINIATURE IRIS FOR THE ROCK GARDEN

These lovely miniature jewels follow the crocus in bloom during the early spring.

A New Everblooming Miniature Iris

that sold three years ago for \$10.00 is included in this collection. In all there are 12 plants in at least 6 choice varieties, carefully selected to cover the color range, including a lovely rich wine shade, an exquisite soft sky-blue, a glistening snow white, a rich golden yellow, a deep velvety purple, etc. A treasure collection for the rock garden, also for the front of the perennial border.

12 Miniature Rock Garden Gems, Including the Everblooming Variety, all for Only..... **\$2.00**

Collection No. 3—POGOCYCLUS HYBRIDS

This race contains many of the most handsome Irises in the world, and this collection contains only the finest of them; including William Mohr, the very best and highest rated of all. Only a few years ago Wm. Mohr sold for \$25 each. For several years it has been the sensation of our Display Gardens. These Hybrids are entirely different from all other Irises, and as beautiful as the finest orchids. They flower early, following the Miniature Irises in bloom.

5 Magnificent Pogocyclus Hybrid Irises, All Different, Including Wm. Mohr **\$2.50**

Collection No. 4—EARLY FLOWERING IRIS ARISTOCRATS

You will get a great thrill out of this new race of early flowering Iris Aristocrats. They follow the Pogocyclus Hybrids in bloom and will come into full flower in your garden while your neighbors are still looking for buds on their Irises. Each variety is a Masterpiece. Each one is a different color. One of them is the deepest colored Iris grown, so intense that it seems to be dripping with color, and so velvety that the entire flower seems to be cut out of the finest plush. They are all large and handsome, from 24 to 36 inches tall.

10 Early Flowering Iris Aristocrats, No Two Alike **\$2.00**

Collection No. 5—SURPRISE COLLECTION OF MAGNIFICENT TALL BEARDED IRIS

A real surprise awaits you in this collection. It contains some of the world's highest rated varieties, winners on the show benches and in the garden. ONE IS A WINNER OF THREE MEDALS. There is a lovely bronze blend, an exquisite orchid pink, a brilliant fiery red, a gigantic fragrant lavender, and others equally striking. The Bearded Iris are still the backbone of a well balanced Iris Collection.

8 Magnificent Beauties, All Different for **\$2.00**

Collection No. 6—THE WORLD'S FINEST SIBERIAN IRISES

This is the finest set of Siberian Irises obtainable anywhere in the world at any price. I will include in this collection several varieties that sold recently for \$5.00 and \$10.00 a plant. Many eminent authorities consider the Siberian Irises the finest of the Iris family. They are prodigious bloomers and make excellent cut flowers. In form they differ from other Irises.

8 Superb Siberian Irises, Properly Labelled, for **\$2.00**

Collection No. 7—BEARDLESS IRIS SPECIES AND HYBRIDS

These marvelous Irises bridge the gap between the earlier flowering groups and the Japanese Iris. They are different in form from all other Irises, and the 10 varieties in this collection are all quite different from each other. They include a burnished metallic copper color, a rich Royal Purple, a lovely soft blue, a deep yellow, a fine red and others equally distinctive.

10 Magnificent Beauties, All Different, for **\$3.00**

Collection No. 8—SUMMER BLOOMING JAPANESE IRIS

These gorgeous beauties are wonderful bloomers; many individual flowers are as large as a dinner plate. Included in this collection are giant singles and doubles, self colors, mottled, blended and striped effects; subtle soft tints and brilliant showy colors. These Japanese Iris are indispensable because they produce a marvelous color effect just when flowers are scarce.

8 Gorgeous Japanese Iris, All Different **\$2.00**

Collection No. 9—IRIS DICHOTOMA (Rare Chinese Species)

This is one of the rarest and most interesting Irises. It comes from Manchuria and Northern China. The thin wiry stems grow from 30 to 36 inches in height and are more branched than any other member of Iris family. A single flower stalk on an established plant will produce from 100 to 200 flowers in a season. It blossoms for a full four weeks during mid-summer, when no other Irises are in bloom. The blue flowers are from 1½ to 2 inches across, beautifully marked and quite handsome. They open in the afternoon (you can set your watch by them) and last only one day, a new crop of flowers appearing each day.

IRIS DICHOTOMA, Each **\$1.50**

Collection No. 10—AUTUMN FLOWERING IRISES

This new race of Irises not only blooms profusely early in the season, but also flowers again just as profusely in the fall, producing a mass of blooms from September until frost, thus completing a calendar of Iris bloom from early spring until late fall. In this collection I have included four colors, a rich blue, a fine yellow, a snow white and a bright purple. You can now have a garden full of Irises in the fall, as well as at other seasons of the year.

Four Colors, One Each, for **\$2.00**

Collection No. 11—WINTER FLOWERING IRIS

This interesting species, Ungicularis (also called Stylosa) is from Algeria, Asia Minor and Northern Syria. It refuses to flower in the summer, but insists on flowering all winter long in the open in our Southern states; or in the protection of a cold frame in the north—or even in a protected spot in the garden. It withstands zero weather out of doors and is not at all difficult to grow. This collection consists of two colors, an exquisite white and a lovely blue.

2 of Each—4 Winter Blooming Iris In All For **\$2.00**

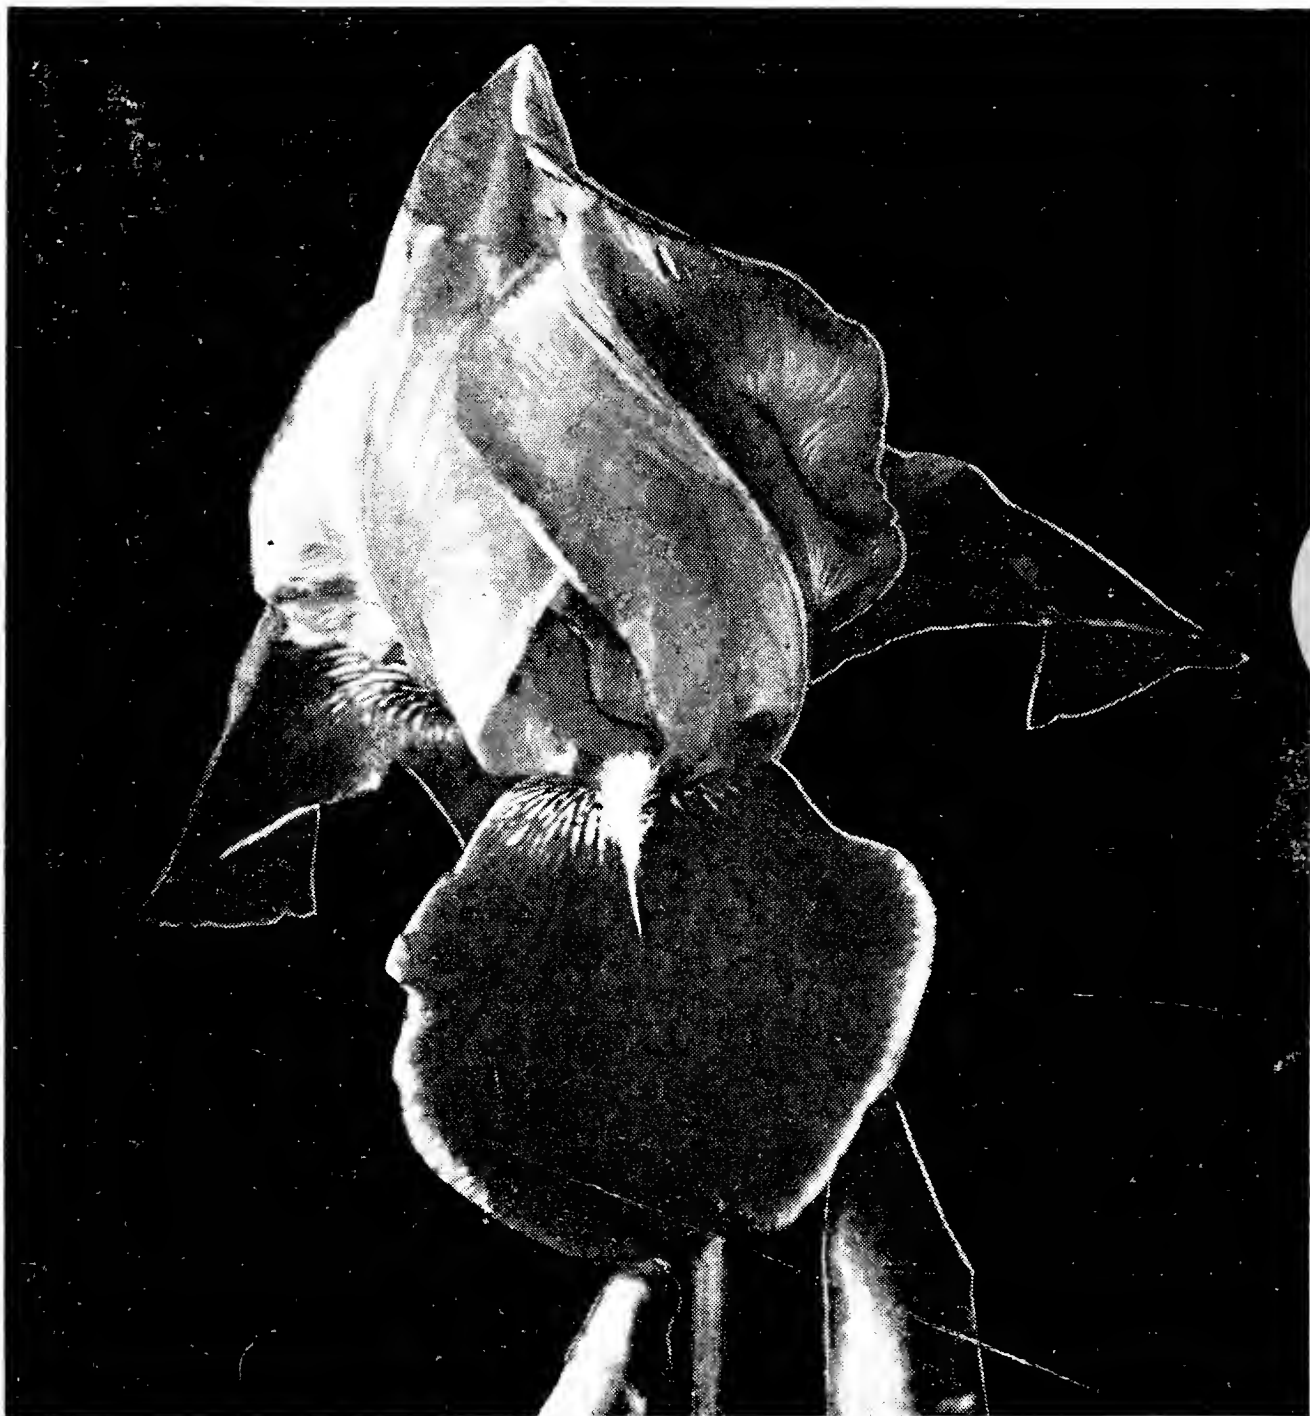

Collection No. 12—CRESTED IRIS

This group is distinguished by a prominent crest, similar to a cock's comb, which extends down the centre of the falls. This crest is composed of the same material as the balance of the petals and is sometimes beautifully frilled and one of the attractions of this group. This collection will include Tectorum, the famous blue "roof Iris" of China and Japan; also an exquisite white form of the same; Crista, a lovely fragrant amethyst blue dwarf for a semi-shady pocket in the rock garden; Cristata Alba, a white form; and Gracilipes, a pinkish lavender Japanese miniature.

It is a magnificent flower, of perfect form, with standards of Dauphins blue and Falls of a deep rich indigo purple. It sold a few years ago for \$25.00; now I offer it FREE as follows:
